

Your favourite website: 'abridgetoenglish.com'... my recent blog that I have created for my topic. I am on a new learning curve and I hope you will come and join me in these discussions.

A gadget you can't live without: my 'MAC Air, iPad, iPhone AND Kindle'... if you travel with me, you will see that I can't choose just ONE!

Something you'd never throw away: my 'LOVE FOR LEARNING'... this is something that is part of me and also something that I hope I have imparted to my students.

Who or what inspires you? my 'HUSBAND'... he is always looking for our next adventure together.

Useful teaching tool: 'PAPER and PENCIL'... we depend so much on technology and often forget the basics...when the battery dies.

Your favourite lesson: the 'AH-HA LESSON'... one in which the students actually realize how far they have come and how much they know!

Your favourite bit about your talk: the 'HANDS-ON' part... where the participants actually learn and use ASL signs that they will be able to take back with them to use with their students.

A lesson you've learnt while teaching: to be 'FLEXIBLE'... this is something that has helped me no matter where I have taught or what age group I am working with.
