

**Your favourite website:** Probably Ted Talks. I love the diversity of topics they discuss, always connected to a personal experience. Also a good way of listening to different English accents!

**A gadget you can't live without:** My cell phone. More than I would like to admit but this little device is everything (material) to me: my notes, my calendar, my communication with others, my information search engine....

**Something you'd never throw away:** Pictures, either printed or digital. Pictures are my memory!

**Who or what inspires you?** Lots of people but mostly a few teachers I've had in the past. Their perseverance, their creativity, their intelligence....

**Useful teaching tool:** A whiteboard and a marker! No matter what, they will always be there!

**Your favourite lesson:** Students interacting and asking questions to each other because they want to know more.

**Your favourite bit about your talk:** Reflecting on why people learn English.

**A lesson you've learnt while teaching:** You learn more than you teach.
