

Hazel Watling

Your favourite website: My favourite websites for *teaching* have got to be <https://tekhnologic.wordpress.com/> and <https://kahoot.com/> (I haven't met a student yet who doesn't like Kahoot!) and <https://www.calm.com/> for *non-teaching*.

A gadget you can't live without: My blender

Something you'd never throw away: Photographs

Who or what inspires you? A tricky one! People who face the most enormous challenges and who keep on going nonetheless.

Useful teaching tool: A vocabulary bag/folder. Useful for just about anything!

Your favourite lesson: Any lesson when something just clicks into place for the students. So satisfying!

Your favourite bit about your talk: Probably hearing how other people approach error correction, how they deal with different error correct scenarios.

A lesson you've learnt while teaching: 3 main lessons! Always be prepared, don't be too reliant on technology with no back up plan, and never think you've learnt all there is to know about teaching.
