

Your favourite website: I am addicted to *pinterest.com*. I find it very inspirational not only for my teaching but also for my reading lists, cooking, arts and crafts and many, many more.

A gadget you can't live without: My smartphone – I love taking photos and editing them in various apps.

Something you'd never throw away: My daughter's drawings.

Who or what inspires you? My colleagues, my students and my family.

Useful teaching tool: *ClassDojo* – young learners love it and always want to take part in evaluating one another as well as creating new award systems. Parents like it because they get a peek inside our classroom – I share stories and photos of my students' work there.

Your favourite lesson: Revision lessons during which we play games such as *trashketball* – I like my lessons to be fun and lively.

Your favourite bit about your talk: It is a very practical talk where I share tried and tested activities.

A lesson you've learnt while teaching: You learn something new every day, that is why I always tell my students that we learn things from one another – they are there to help me grow as a teacher and I am there to guide them.
